Subject: Pipeline P00547 Project

Dear Mr. Schmidt,

Beta Offshore is grateful to you and your staff for your contributions to serve the analytical needs that arose from the Pipeline P00547 event in October 2021. Due to the criticality for quick turnaround and accurate and reliable data, you and your team were selected to do the testing on the samples collected from the beach and ocean tidal zones. Please thank your team for working around the clock to accommodate the rush turnaround time requirements. Your team delivered results quickly, as promised, and the public health section of the incident command team were able to recommend the Positive Lab reports be used to reopen the beaches.

Positive Lab Service has been a high quality lab for so many years. It is a testament to your dedicated and skilled staff and your leadership commitment to delivering quality to your customers. Thank you again for your support in our time of need.

Sincerely,

A handwritten signature in black ink that reads "Diana Lang". The signature is fluid and cursive, with the first name "Diana" and last name "Lang" clearly distinguishable.

Diana Lang
HSE Manager
